

Growth in Life Expectancy

FRIENDS
OF THE GLOBAL FUND

AGAINST AIDS,
TUBERCULOSIS
AND MALARIA

The Global Fund is founded*

* The growth in life expectancy is only partially attributed to HIV, TB and malaria programs

** 2004: Global peak in AIDS-related deaths

*** 2020: COVID-19 disrupts progress

United Nations, Department of Economic and Social Affairs, Population Division (2022). World Population Prospects 2022.
