To get back on track on ending the epidemics of AIDS, TB and malaria and continue U.S. leadership in support of the Global Fund, Friends urges Congress to appropriate at least $1.65 billion to the Global Fund in FY25.

A $1.65 BILLION INVESTMENT IN THE GLOBAL FUND WOULD TRANSLATE TO:

- 26.8 million people receiving malaria treatment and care
- 666,931 people receiving seasonal malaria chemoprevention to protect children and families from malaria
- 125.8 million mosquito nets distributed to protect children and families from malaria
- 81,009 HIV-positive TB patients receiving antiretroviral therapy
- 61,466 people receiving treatment for multidrug-resistant TB
- 30.1 million people screened for TB
- 1.6 million people receiving TB treatment and care
- 4.3 million members of key populations reached with prevention programs
- 1.9 million lives saved through programs supported by the Global Fund
- 41.8 million new infections or cases averted across the three diseases
- $47.8 billion in economic returns created through health gains
- 2.6 million people receiving antiretroviral therapy
- 249,400 mothers receiving medicine to prevent transmitting HIV to their babies
- 70.8 million people receiving HIV counselling and testing
- 30.1 million people screened for TB

**WHAT DOES A $1.65 BILLION INVESTMENT IN THE GLOBAL FUND BUY?**

Estimates are derived from the modelling conducted to estimate impact of the Global Fund 2023-2025 Investment Case. The results reflect contributions of Global Fund investments to national programs and their results. The Global Fund supports a range of interventions recommended by technical partners, which go beyond those presented in the results of this calculator.
